Post its

This school supply list has been created by this year's teachers. All of these items were selected because they are essential supplies that will be used routinely. We cannot stress enough about the binder being 3 inches or larger. Students will be required to organize and maintain this one all subjects binder as a part of their grade in all classes. Binders will be set up in the first week of school during class. Students can not have backpacks in class, so please do not buy extra materials that they will have to carry around or that will take unnecessary space in the binder.

Please Donate To Help The Classrooms

Each teacher spends a large amount of their own personal money on these items each year. Please donate something if you are able. Thank You!
