Parent/Guardian Name(s): _____ HR/First Period Teacher Name _____

Computers located in the FAMU DRS Media Center and Computer Labs have been successfully certified by the State of Florida Department of Education (DOE) for 2012 FCAT Testing. As such, it is necessary that we reemphasize the following computer lab usage criteria and procedure.

1. Do not download or save any document, program or games to any lab computer (Labs: Elementary, Middle School, High School and Media Center). Students must use a portable drive to store and retrieve documents pertaining to classroom/school work.
2. Do not change the computer settings for any reason (Due to DOE testing certification requirements, changing lab computer settings will violate our DOE test certification. Because this is such a serious offense and because it will impact the school's certification, students violating this rule will receive disciplinary action.)
3. Students are prohibited from being in any of the school's computer labs or from using any of the media center computers if they are unsupervised.

Again, all computer desktops have been cleaned for DOE certification and must remain cleaned.
